SUMMARY

Hi, this is Yamin, a 2nd year CSE student from 🇧🇩, passionate about Computer Science with a strong interest in competitive programming. Dedicated to continuous learning and using my skills to contribute to innovative projects. Seeking internship or entry-level opportunities to apply my knowledge and gain valuable experience in the field

Feel free to connect with me on LinkedIn or visit my GitHub & GitLab to learn more about my work [*yamin401533](https://github.com/yamin401533)

WORK EXPERIENCE

Incoming Software Engineering Fellow at Headstarter AI - Fellow Project

SKILLS

- FrontEnd (HTML5, CSS3, React.js, Node.js, Modern JavaScript (ES6+))
- Check my project on GitHub : **slytherin** - Slytherin is a React-based project dedicated to exploring the magical creatures of the Harry Potter universe. This interactive application allows users to delve into the enchanting world of magical beings, from house-elves to dragons. Check my project on GitHub : <https://github.com/yamin-401533/slytherin>
- **SecureByte** -Designed and developed the frontend for the "SecureByte Cybersecurity Internship for Beginners" website for SecureByte
- **slytherinTech - an e-commerce website**
- **Headstarter-AI** Project - a software engineering fellowship program using FrontEnd technologies
- **Quantum Computing**
- python, c++
